

## Chapter-1 Welcome Back to School (Poem)

**Summary:** This is a funny poem which deals with the dream of a child. The dream is that the teacher is telling that the summer season has ended. The school's new academic session has started but this year is totally different and we all will have lots of fun.

We will not study Mathematics, The whole day, recess will continue. Instead of the pledge, we all will sing a rock-and-roll song.

We will play only games and you all can bring your favourite toys in the classroom. You all can run in the halls and you can make lot of noise.

For completing the homework, you all can play your videos and you can watch lots of T.V. We will go to watch movies for education and get lots of candies for free of cost.

There will be a lunchroom in school, where you will be served only chocolates and triple fudge sandaes which is an ice-cream topped with fruit. Whatever I have told you, I(the poet who is a child) heard it from my teacher, before I woke up from my dream.

#Note- Dear students kindly note it down in your notebooks, old notebooks or pages, whatever is available with you.

QA. Write the meanings of.

WORD	MEANINGS
