# ENGLISH WRITEN

### Dear Parents,

As the students practice the letter formations at home, it is important that they practice using the correct "path of motion" for that particular letter. Listed below is the recommended "path of motion" for upper and lower case letters. By practicing the letters correctly and consistently, your child will develop the muscle memory needed to efficiently write the alphabets.

\*Kindly give the practice to your child to write independently without dots and without parents support( without holding hands). If you don't have 4 lines Note book with you so please draw 4 lines in a plain paper, this will be helpful for your child to learn the formation of the letter correctly and properly with the 4 lines.

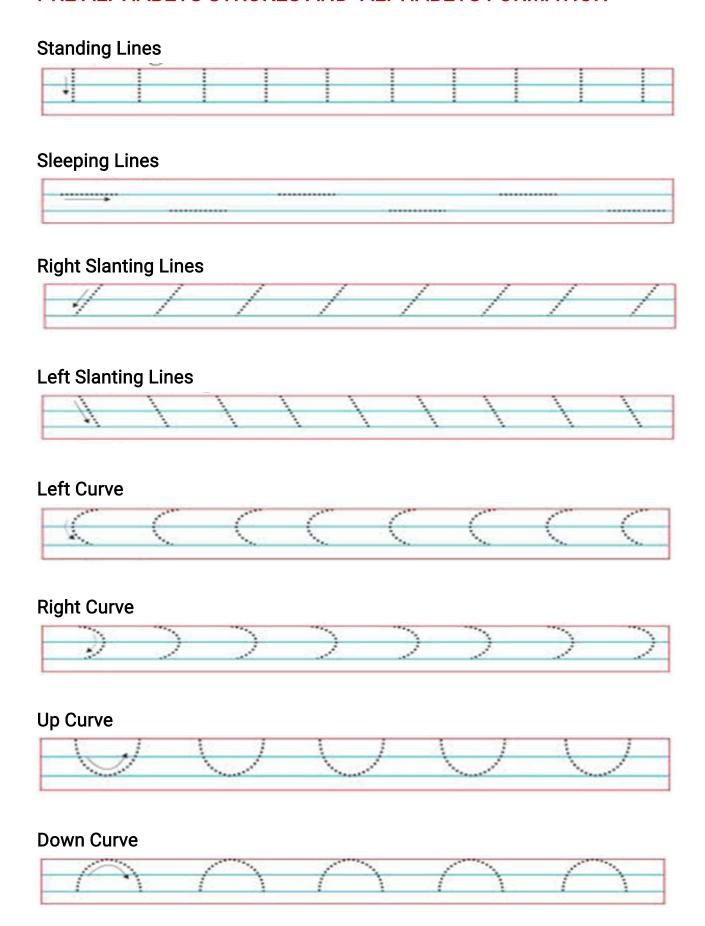

Before Starting the letter formations please revise "Pre Alphabets Strokes".

The following link will be helpful for you:

### PRE ALPHABETS STROKES AND ALPHABETS FORMATION

## **Alphabets for Week 2**

Kindly follow the same formations of the alphabets shown above. Make the children write one page without leaving the lines.
