

## CLASS IV

### MORAL .SCIENCE

#### LESSON2. TRUE GIFT OF GOD (LOVE NATURE)

#### WHEREVER NATURE WORKS THERE WILL BE BEAUTY

**Nature** is the most important and integral part of lives of everyone. We all blessed with the true love of God in the form of beautiful nature. Nature is the beautiful creation of the God which he blessed to us as a precious gift. Nature is everything which surrounds us like water, air, land, sky, fire, river, forest, animals birds, sun, moon, etc. Nature is very colourful and has many things.

God gave us the earth to live on, the air to breath, and the water to drink. These gifts make our world a wonderful place.

Have we ever thought of our duty towards these gifts of nature?

It is our duty to look after and preserve these gifts of nature.

How we can do this?

**With simple small step we can do our duties.**

- Plant more trees.
- Save electricity.
- Say no to plastics.
- Do not litter your surroundings.
- Save natural resources.
- Spread awareness .

**Nature is a great source of beauty and inspiration; so, we must value it.**

**To be done in note- book.**

**A. Answer the following questions.**

1. What is the most wonderful and true gift of God to us?

Ans. The most wonderful and true gift of God to us is the 'gift of nature'.

2. What is our duty towards the nature?

Ans. Our duty towards the nature is to look after and preserve these gifts of nature.

3. How are men polluting the wide oceans and rivers?

Ans. Men are polluting the wide oceans and rivers by throwing tons and tons of refuse into it.

4. What is the 'green gold'?

Ans. Trees are our best friends. They are said to be our 'green gold'.

5. How are the trees helpful to us?

Ans. Trees help us in many ways like they breathe in carbon dioxide and breathe out oxygen. Oxygen is very essential for us. We get many other things from trees like fruits, medicine, vegetables, wood for fuel and furniture etc.
